A clear certification process

1. Application and scope review

We collect organization, site, employee, activity and requested-standard information.

2. Proposal and agreement

Service type, accredited status, scope, timing and commercial terms are documented.

3. Stage 1 assessment

Readiness, management-system documentation and key conditions are reviewed.

4. Stage 2 assessment

Implementation and conformity are evaluated using objective evidence.

5. Independent decision

Findings and corrective actions are reviewed before a certification decision.

6. Surveillance and recertification

Ongoing audits maintain confidence throughout the certification cycle.

Strategic certification partnership

Sistema Certification & Inspection is a strategic partner of Quality Sistema Certifications & Inspections Pvt. Ltd., an IAS-accredited certification body.

The applicable service conditions, certification body and authorized scope are confirmed in each proposal and agreement.
